

Timberon Water & Sanitation District

Proudly serving the people of Timberon for over 30 years.

Entry-Level Water Field Trainee (Seasonal)

Job Summary

We are looking for a dependable and motivated **Entry-Level Water Field Technician** to join our team. This is a hands-on position involving outdoor field work, routine inspections, basic maintenance, and assisting with the operation of our water system.

No prior water-industry experience is required. We are willing to train the right person who has a strong work ethic, is mechanically inclined, and is willing to learn.

Responsibilities

- Assist with basic maintenance and repairs throughout the water system.
- Check equipment and report leaks, malfunctions, or other issues.
- Read and record water meters/Bi-monthly meter reads, tank levels, pressure, and equipment readings.
- Install, replace, and inspect water meters and related equipment.
- Use basic hand and power tools safely.
- Maintain clean and organized work areas, tools, vehicles, and equipment.
- Complete work orders, inspection sheets, and maintenance records.
- Respond to service calls and assist with water leaks or other field issues.
- Follow all company safety procedures
- Work alongside experienced technicians and learn the operation and maintenance of the water system.

Qualifications

- No previous water or utility experience required.
- Willingness to learn and develop new skills.
- Dependable, punctual, and able to work independently when assigned.
- Comfortable working outdoors in hot, cold, and changing weather conditions.
- Mechanically inclined or interested in learning mechanical skills.
- Able to use basic hand tools or willing to learn.
- Valid driver's license.
- Ability to perform physical work, including lifting, bending, kneeling, climbing, and walking over uneven terrain.
- Must be able to follow safety procedures and instructions.
- Water operator certification is a plus but not required; company training may be provided.

What We're Looking For

We are looking for someone who **shows up, works hard, pays attention, and wants to learn**. The right candidate doesn't need to know everything on day one—we are looking for someone dependable who is willing to learn the water system and grow with the company.
